## Recovery and Resilience Facility

European Semester

Annual Sustainable  
Growth Strategy

Next GenerationEU

The 2021 **Annual Sustainable Growth** Strategy launches the next cycle of the **European Semester** and sets out strategic guidance for the implementation of the **Recovery and Resilience Facility (RRF)**. The seven **flagships** set out issues that are common to all EU Members States.

### Power Up

for more green technologies and renewables

### Renovate

to improve energy efficiency in public and private buildings

### Recharge & Refuel

for sustainable and accessible smart (public) transport

### Connect

for rapid broadband and 5G networks

### Modernise

for the digitalisation of public administration services

### Scale Up

to increase the data cloud and to develop powerful processors

### Reskill & Upskill

to adapt education systems to support digital skills for all ages

## Recovery and Resilience Facility

is the key recovery instrument to emerge stronger and more resilient from the current crisis that provides a total of **672,5€ billion** to support investment and reforms in loans and grants.

# EAEA's demands

# What can you do?

We want to ensure that Member states **involve civil society** at all phases of design and implementation of the RRF.

We want to ensure that national reform plans tackle issues highlighted in the **country-specific recommendations** from 2019/2020.

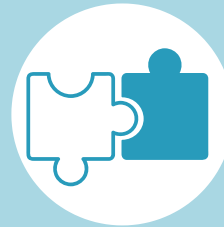

We encourage Member States to use this unprecedented opportunity to **strengthen national and regional lifelong learning** and adult education systems through **coherent strategies** and **investments** in the sector.

We demand a **holistic approach** to adult learning, including life, digital and green skills.

Contact your **national authorities** (ministries and other decision making bodies) to be **consulted** on the national recovery and resilience plans. (Member States have to report on how they have interacted with civil society)

## **Endorse Flagship Action 7: Reskill and Upskill**

The adaptation of education systems to support digital skills and educational and vocational training for all ages.

**Draft Plans by  
October 15, 2020**

**Review & Adoption  
in April 2021**
